Application process is a tedious job but Collegepond made it so much easier for me. Right from prepping for GRE and career guidance to targeting the right universities, it has done an amazing job. They have a portal (Converge) and each part of the application process is handled by a different counsellor making the job not only quicker but also more efficient. I would like to thank the drafting team for proof reading and making changes till it was perfect. A special shout out to the head counsellors for answering even the silliest doubts and making sure that we take the right decision. Kudos to the entire team!

I approached Collegepond when I did not get an admit from my dream university in Fall 2018. They not only helped me with my dream university but also helped me shortlist more universities based on my profile. The counsellors there transformed banal pieces of information into beautiful drafts. They very kindly continued their services till Fall 2020 without charging me extra for the services I did not use. Finally, I got into my dream university this year and I will be forever grateful of Collegepond for the same.

Before applying for my Master's degree, I had several doubts, right from which countries I wanted to target and which colleges I wanted to shortlist. Having joined Collegepond for counselling, most of my doubts were cleared. The counsellors helped me figure out which countries I should target and eventually identify the specific universities to apply to. I found Collegepond's online platform, Converge to be very useful to guide me through every step of the application process. In addition to that, attending a couple of in-person seminars was very informative. After the tedious application process, having landed an admit from Carnegie Mellon University, I am thankful for all the help I received from Collegepond. The counselling experience with Collegepond has truly been positive for me.

Collegepond uses a very methodical step by step approach to various application phases. I particularly loved their process on SOP writing where the counsellors helped me brainstorm on a storyline specific to my career goals and history. This crude storyline was then furnished into a very strong well-written SOP. Their inputs on crafting a resume showing relevant experience in my chosen field of masters added further credibility to my application. I can confidently say that Collegepond's support and counselling were instrumental in securing admits in my most ambitious university. They also helped me prepare for multiple admission interviews through mock sessions and detailed feedback processes. I strongly admire the entire counsellor team for their dedication and approachability which makes this otherwise taxing process less stressful.

Choosing Collegepond as my guide for the studies abroad has been one of the best decisions I have ever made. The counsellors have been my constant support since the time I decided to go abroad for my Masters to the time I got my admit and I knew they would be right there to help me with my future ventures too. The best part about them was that they made themselves available for their students at any time, without any hesitation - addressing the silliest of doubts and guiding us through it all. I am thankful and grateful for your help. Kudos to the amazing and hardworking team of Collegepond!

When it comes to go abroad and study, students get anxious due to reasons such as GRE, TOEFL, LORs, application process, accommodation, etc. Especially parents are very concerned about their child. And that's where Collegepond does a tremendous job. Right from course selection, the counsellors have helped me like a parent. The staff, whether it be a LOR counsellor or a GRE teacher, their knowledge and experience helped to get admits from top universities in USA and Canada. In all, Collegepond has been there with me in every step towards studying abroad and I'm thankful that I enrolled into Collegepond.
